Dr. Marcia Chang Vogl

Shows Your Audiences How to Step up to a "Better than Normal Life"

The Secret? Forgiving is NOT an option. It is essential.

When people are "down" on themselves and others, unforgiveness is often involved. Unforgiveness is a prison that will keep you from joy, prosperity, and favor.

Marcia Chang Vogl is a teacher, spiritual mentor, author, and the Director of Bethany Projects of Hidden With Christ Ministries. Holding a Doctorate in Practical Ministry, she has counseled for 30 years with Biblical principles that apply to everyone. Through mentoring classes, Women's meetings, workshops, and personal prayer sessions she gives direction for daily life, work, and relationships. She is available to speak at churches, seminars, retreats, and conferences. She has been a Global Volunteer in Xian, China and Hanoi, Vietnam. Married for 50 years, she has raised an international family of three children.
